## Join your Quality and Safety colleagues for an educational webinar!

### Registration:

[Click Here!](#)

### Deadline:

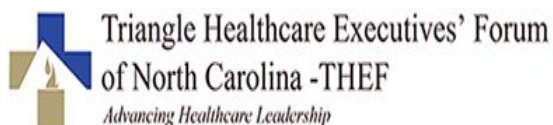

Monday 7/8/2024

### Course Fee:

NCAHQ, OrAHQ, AzaHQ, MAHQ, GAHQ  
NEAHQ & FAHQ Members—**FREE**

Non-Members/ACHE —**\$15**

This program is pending approval for 1 CE hour for CPHQ®. CPHQ® approved hours can be applied to other certifications. NCAHQ has partnered with the Triangle Healthcare Executives' Forum of NC (THEF) to offer 1.0 hour of Qualified Credit toward advancement or recertification in the American College of Healthcare Executives (ACHE). Participants should list attendance in their ACHE profile for applied credit.

Standardization is the key to improving quality. The industry-standard **Healthcare Quality Competency Framework\***, developed by **NAHQ®**, was created by a diverse group of healthcare quality leaders and twice validated in the market—by those doing the work and by those leading the work. These experts categorized healthcare quality work into **eight domains**, which are comprised of **29 competency statements** and 486 skill statements, stratified by Foundational, Proficient and Advanced levels. [Learn more](#) about the Framework.

**Title: Keys to Healthcare Quality Improvement Understanding Projects, Overcoming Obstacles**

**Event: Tuesday 7/9/2024**

**12:00 - 13:00 pm EDT**

**Speaker Objectives: Participants will be able to:**

1. Describe the key phases of project management and their relevance in healthcare quality improvement initiatives
2. Identify common challenges in healthcare quality improvement projects
3. Learn strategies to overcome common challenges in healthcare quality improvement projects

**This Webinar aligns with the NAHQ Healthcare Quality Competency Framework in the following Domains:**

- \* Quality Leadership and Engagement
- \* Performance and Process Improvement

**Presenter: Ashleigh Allgood**

Ashleigh M. Allgood, MPH, MBA, is an Instructor in the Department of Health Services Administration at the University of Alabama at Birmingham. She has over 10 years of experience in healthcare quality improvement and project management across the continuum of care. Ashleigh teaches courses on project management and process improvement methodologies like Lean Six Sigma, for which she holds a Black Belt certification.

Ashleigh has delivered education content on change management, project planning, risk mitigation, stakeholder engagement, and ensuring sustainability of improvement. Her professional background includes implementing quality initiatives funded by the Centers for Medicare and Medicaid Services to enhance care delivery and reduce costs in long-term care settings.
